OUR KEY DIFFERENTIATORS

Centralized Control

Unlike many competitors, we don't shift the burden to local brokers. We maintain control over every step of the transaction process. Our methodology creates measurable results from analysis and recommendation to final execution.

Client-Centric Focus

We do not believe in one size fits all. While many competitors offer inflexible solutions, we pride ourselves in customizing our services, reporting and technology for each and every client.

Advanced Technology Platform

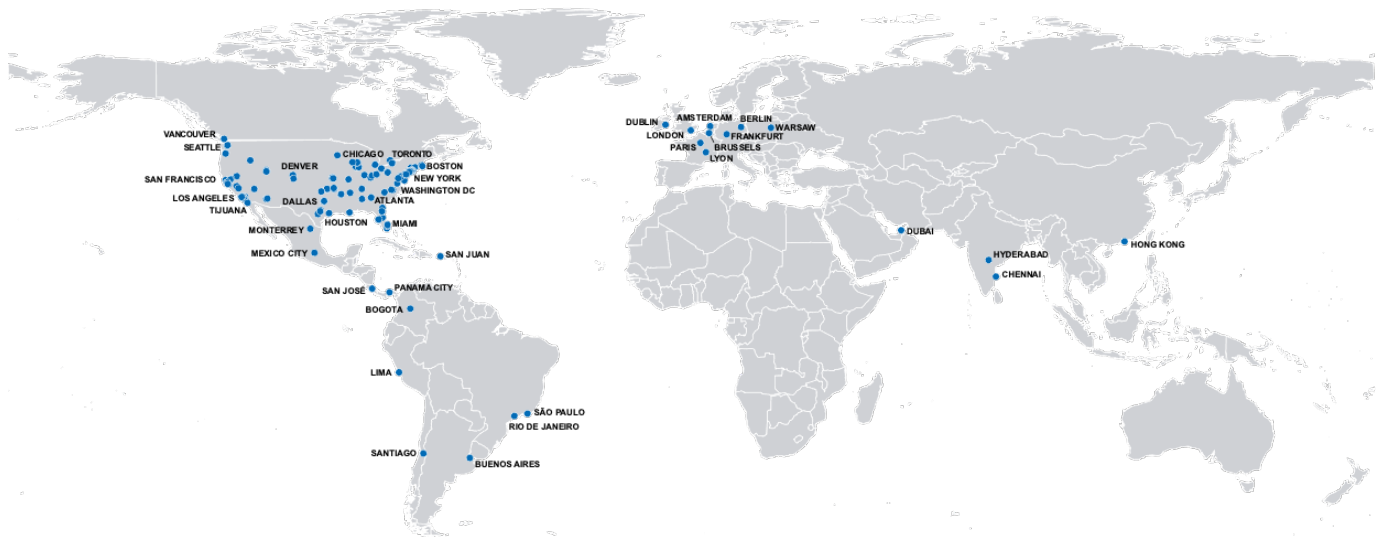

Our technology platform is capable of aggregating data from any client business system, or external source to provide a customized reporting dashboard which facilitates strategic planning and ensures transparency.

Specialized Expertise

In addition to office, industrial/manufacturing and retail, we offer expertise in focused sectors including legal, life sciences, financial services, hospitality, oil and gas, electronics and technology, healthcare and data centers to deliver customized solutions.

GLOBAL REACH

With nearly 6,200 brokerage professionals in 160+ offices globally, we have the ability to provide transaction and advisory services across all geographies, asset classes and industry sectors.

A TRUE PARTNERSHIP

“Newmark has helped us lower occupancy costs, improve service delivery, increase reliability of critical facilities and promote the evolution into a scalable real estate organization prepared to deliver best-in-class services to our customers well into the future. We are extremely pleased with our partnership.”
