How is the assessed value determined?

In Colorado, commercial real estate is assessed at 29% of market value (7.15% for multifamily). The assessed market value should be determined through the income approach, the sales comparison approach and/or the cost approach. In reality, commercial real property is often assessed through mass appraisal, leaving many properties unfairly over-assessed.

Which properties are the best candidates for appeal?

Properties that demonstrate high vacancy rates, deferred maintenance, functional or economic obsolescence, or tenant/operational issues. Assets that are not uniformly assessed with their competitive set should also be reviewed.

What are the levels of appeal?

County Assessor
County Board of Equalization
Board of Assessment Appeals (BAA)
