How is the assessed value determined?

In Wisconsin, commercial real estate is assessed at 100% of market value. The assessed market value should be determined through the income approach, the sales comparison approach and/or the cost approach. In reality, commercial real property is often assessed through mass appraisal, leaving many properties unfairly over-assessed.

Which properties are the best candidates for appeal?

Properties that demonstrate high vacancy rates, deferred maintenance, functional or economic obsolescence, or tenant/operational issues. Assets that are not uniformly assessed with their competitive set should also be reviewed.

What are the levels of appeal?

Open Book and Board of Review (Locally Assessed);
Wisconsin Department of Revenue (Manufacturing)
