

Retail & Regional Malls

Our unmatched Retail & Regional Malls platform boasts extensive expertise across super-regional malls, regional malls, lifestyle centers, power centers, community centers, neighborhood centers and single-tenant properties.

Our MAI-designated appraisers can tap into our in-house retail brokerage platform, dedicated mall research staff and proprietary regional mall database to anticipate trends and provide comprehensive analysis.

Our team provides valuations, feasibility studies and market studies as well as rent, expense and leasehold analyses for existing and proposed retail properties, whether department stores, big-box stores, shopping centers, theme/festival centers or mixed-use developments. We have completed assignments of every size for owners, investors, developers, corporations and public agencies.

We take an individualized approach to valuation, combining value analysis with an overview of specialized business operations—such as store sales, tenant reimbursement structures and a close assessment of dynamics between retailers and consumers—to account for every detail of the asset.
